Registration No. Y178 TBD, first registered on 23/03/2001, currently showing 54,032 miles (Not Warranted correct, but the MOT history shows low annual mileage and the 2016 figure appears to have been misread). The car is SORN'd and the MOT expired on 18/01/2021. A very local motor car being sold to close the estate of the late lady owner. The vehicle had obviously been standing for some time, but once the battery had been charged the engine readily started and ran smoothly. The car drives but during moving the car around the sale-yard, a brake pipe appears to have failed and the hand-brake has had to be relied upon since. There are front electric windows and a glass sun-roof, the interior presents well and it is noted that the heater seems very efficient. There are two keys present. The V5C is not to hand and the front passenger door is currently locked. Some re-commissioning and a thorough check-over will obviously be required prior to returning this attractive vehicle to the roads. These sporty little hatch-backs were apparently one of Citroen's most reliable cars, they were known for good handling and the 1.1 fuel injected engines gave surprising economy, they are now regarded by many as classic vehicles and are not a common sight. ***As with all motor vehicles sold through our auctions, this vehicle is sold in its current condition and all vehicles should be inspected in person prior to bidding. N.B. BUYERS PREMIUM ON THIS LOT 10% + V.A.T. (Total premium 12% plus any specific on-line bidding fees).
